

O[wa][®]

Luxury Frankincense Candy

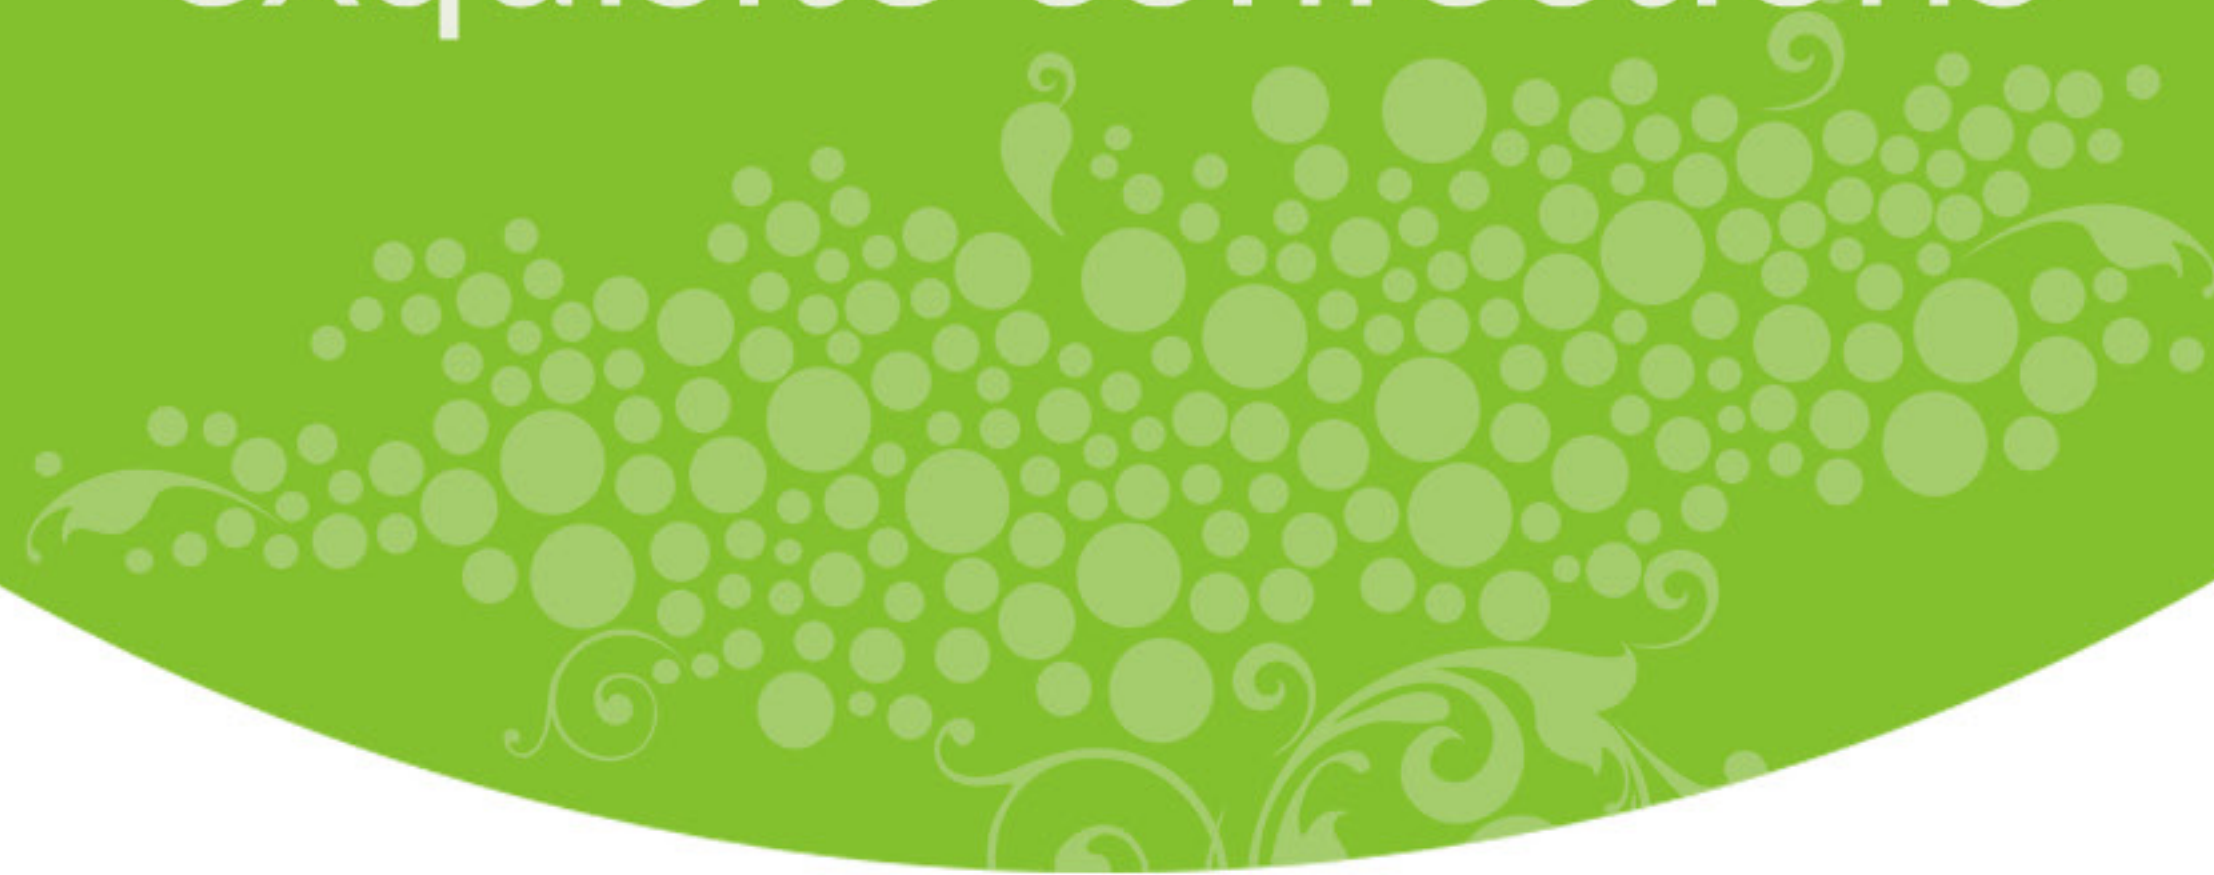

The sweet taste of the
spirit of harmony

The spirit of harmony
is found at that point where two
very different traditions meet.

It is where the purity of nature blends
with time honoured practices to create a
whole new experience for your palate.

It is O [wa]

Written as 'O' but pronounced 'wa'
in Japanese this simple character
is bringing a wave of harmony through
exquisite confections

O_[wa][®]

Exquisite confections that
blend the finest frankincense in
the world - Oman's Hojari
Frankincense - with traditional
Japanese confectionary skills and
techniques that have been
passed down over
centuries.

Ingredients

Renowned for its frankincense since ancient times, Oman has traded in this precious natural resin for several millennia with references being found as early as 3500 years ago in ancient Egypt.

Used primarily as an incense (in fact the English word Frankincense is a contraction of the old french word *franc encens* which means high quality incense). Frankincense has also been used extensively in traditional medicine where it is said to help combat inflammation in conditions such as Osteoarthritis, kill cancer cells, boost immunity, fight infections, reduce anxiety and fight depression.

O [wa] Pearls combine Oman's own Hojari frankincense, the finest in the world, with healthy Himalayan crystal salt that is rich in minerals and lower in sodium due to its larger crystal structure. Fine quality sugar is the final ingredient as O [wa] pearls contain **no added colours, flavours or preservatives.**

The Techniques

O [wa] Pearls are handmade, using traditional Japanese confectionary skills with expertise that has passed down over the last 300 years. Kyo-ame or Kyoto sweets are well known specialties that are handmade by master confectioners, using traditional methods. However, this is the first time that a sweet of this kind has been made anywhere in the world.

O [wa] Pearl

Infused with Hojari frankincense the O[wa] Pearl is a confection that is quite unlike any other and yet it is a sweet that should always have been.

O [wa] Pearl Plus

With an extra helping of Hojari frankincense goodness this special confection is for the refined palate that demands a robust flavour.

O [wa] Pearl of Fire

An exciting new flavour, the Pearl of Fire adds the fiery piquancy of red chili to frankincense and is already a hot favourite.

Luxury Rose Candy

Jabel Akhdar

The delicate taste of a summer day, O [wa] Rose Pearl is a very special candy that is infused with the petal of the finest pink roses grown on Jabel Akhdar in the Hajar mountain range of Oman.

Ingredients: Jabel Akhdar Pink Rose, Himalayan Crystal Salt, Sugar Syrup
